

BUG-03 Honeymoon Special Offer Internal Note

Current Issue: An internal/client-confirmation note, "Editable final wording when client confirms," is displayed as part of the customer-facing offer content.

User / Business Impact: This makes the offer section look unfinished and may confuse customers because the text appears to be an internal note rather than actual offer information.

Recommended Improvement: Remove the internal note and replace it with the finalized customer-facing offer information after client confirmation.

BUG-04 Sustainability Page Important Note					
Current Issue: An internal/client-related note is displayed on the customer-facing Sustainability page.					
User / Business Impact: It may make the website appear unfinished and can confuse visitors.					
Recommended Improvement: Remove the internal note and replace it with finalized customer-facing content after client confirmation.
